Delegates will receive practical guidance and illustration on how to discharge the Principal Designer role in a proportionate manner.

- The duties and role of the Client, Principal Designer, Designers, Principal Contractor and Contractors.
- Assessment of knowledge, skills, experience and resources.
- Project Documentation
- Applying Principles of Prevention and Design risk management
- Pre-construction information
- Coordination and communication
- Health & Safety File Content

31st March - 2nd April 2020 - Central Leeds

DAC
DAC BEACHCROFT

A **LEADING** INTERNATIONAL
LAW BUSINESS

DAC Beachcroft is delighted to be working with Abbey CCL to provide an insight as to how health and safety criminal trials work with this **mock trial**.

Let's set the scene, two years ago a Principal Designer got a call from the site manager of a project he was working on. A contractor on site was killed. Now it's the **Principal Designer's trial** and you are our Jury. Hear the evidence, discuss the evidence, then form your verdict.

"The shock of the story unravelling and how mistakes were made, certainly showed us how we could face a situation similar to that."

- large corporate organisation
