

ANNUAL CONFERENCE

WEDNESDAY 1 SEPTEMBER 2021

Facing the future together

#APSconf21

APS ANNUAL CONFERENCE

WEDNESDAY 1 SEPTEMBER 2021

FACING THE FUTURE TOGETHER

This year’s APS annual conference is coming to you online and bringing an exceptional line-up of speakers, guests and opportunities to network direct to your laptop, smart phone or tablet.

This year’s event is focussing on how the construction industry can tackle challenges together and will feature an in-depth session on the Building Safety Bill as well as other topical subjects. Speakers confirmed include: the designers of the new duty holder roles coming in as part of the Building Safety Bill with special sessions on the PD and building manager; experts on the new Fire Safety Act; conversations on design risk management, temporary works; presentations on the fast evolving world of BIM; and how construction can play its part on the war on climate change.

PROGRAMME

ANNUAL CONFERENCE 2021

FACING THE FUTURE TOGETHER

09:15	Welcome: Lesley McLeod, Association for Project Safety
09:20	Introduction: Jonathan Moulam, Association for Project Safety
09:30	Session 1: The State We're In
	Current Developments in Construction: Graham Watts, Construction Industry Council
	Understanding the Building Safety Bill: Jonathan Moulam, Association for Project Safety
	Building Safety Competence Framework standards, BSI work programme: Clare Price, British Standards Institute
10:45	Break
11:00	Session 2: The Skills We Need
	Industry 4.0: Shaping a future-wise APS: David Philp, AECOM
	Putting old heads on young shoulders - education and training for the construction of the future: Aled Williams, UCEM
	Developing new tricks: Jimmy Quinn, IOSH
12:15	Session 3: Lunch & Networking
	An opportunity to network and meet the APS directors and staff
13:15	Session 4: Managing Risk
	Building Safety Bill - Into Occupation: Anthony Taylor & Russ Timpson, Building Safety Alliance and Tall Building Fire Safety Network
	Building Safety Bill - a lawyer's perspective: Christian Charles & Ian Smith, Fladgate LLP
14:10	Break
14:30	Session 4: Break Out Challenges
	DRM within CDM: Mark Snelling, Safetymark
	The Importance of Temporary Works in Construction: Francis Kwateng, Temporary Works Forum
	Identifying risk, a structured approach to risk: Philip Baker, APS
15:15	Session 4: President's Panel
	Jonathan Moulam: President - APS, Mark Snelling – Safetymark, Philip Baker – APS, Francis Kwateng – Temporary works forum, Russ Timpson – Tall building fire safety network and Paul Bussey – RIBA and AHMM Architects
16:00	Session 5: International Industry – Local Action – Global Reach
	The Green Homes Revolution: Brain Berry, Federation of Master Builders
	Carbon Zero - the Climate Action Challenge: Simon Foxell, The Edge
16:55	Closing Address: Jonathan Moulam, Association for Project Safety
17:00	Conference closes

SPEAKERS

PHILIP
BAKER

Director
Association for Project Safety

Philip Baker is a senior industry practitioner and trainer.

Philip has forty years’ experience in the construction sector spending a quarter of a century embedded in CDM related matters. He has delivered, advised on and provided training for all five current dutyholder roles. Philip specialises in delivering better outcomes for construction workers and has been involved in setting industry standards in the UK and Europe.

Philip is currently working to design and have recognized an industry risk management tool, a former president of APS. He is currently a director of the association and serves on the Finance and Membership Committees.

CLARE
PRICE

Sector Lead, Built Environment
British Standards Institute

Clare Price leads on the built environment at the BSI working on the new construction dutyholder roles. Clare has extensive experience and has been working with industry and government to identify standards’ needs and deliver complex standards’ projects.

Clare led the standards’ workstream in the Each Home Counts independent review of energy efficiency and renewable energy - this included the PAS 2035 framework, under the Retrofit Standards Task group. A new BSI technical committee for retrofit was established in 2020.

Clare sits on the Green Construction Board infrastructure working group looking at standards for carbon management and low carbon concrete.

BRIAN
BERRY

Chief Executive
Federation of Master Builders

Brian Berry is the chief executive of the Federation of Master Builders [FMB]. Brian is also a member of the Construction Leadership Council [CLC] and chair of the CLC’s domestic repair maintenance & improvement working group.

Brian joined the FMB as its director of external affairs, a post where he was responsible for UK and EU policy, public affairs and media relations. Before the FMD Brian worked for the Royal Institution of Chartered Surveyors [RICS] as its head of UK public policy.

Brian is a well-known commentator on construction issues and a regular on television and in the national and trade press.

JIMMY
QUINN

President
IOSH

Jimmy Quinn is IOSH President and a leading HSE manager known for his drive, vision and coaching ability. Jimmy has a thorough knowledge of international best practice and HSE auditing. He is experienced in developing bespoke HSE management systems.

James ensures people and business comply with current legislation, regulations and industry best practice in his role completing management reviews of policies, systems and procedures. He helped develop ISO 55001 - the asset management systems standard.

James has a masters in strategic management and leadership and a post-graduate diploma teaching further education. He is a member of IOSH, CMI and CIOB.

RAYMOND
BONE

President Elect
Association for Project Safety

Ray Bone is the APS President Elect. He is a lecturer at Hull University, an experienced trainer and currently leads a multi-disciplinary team working across Europe.

Ray has over twenty-nine years’ practical industry experience backed by sound management skills. He has a track record of conscientious work with APS and other construction sector organisations. He has served on Council and as a director and has been an enthusiastic regional volunteer committed to making work in construction better and safer.

Ray has worked on projects ranging from site management to leading teams of designers, seeing projects through from design to completion.

IAN
SMITH

Senior Associate
Fladgate LLP

Ian Smith is a senior associate in the construction department at Fladgate. Ian specialises in general construction including transactional and contentious matters.

Ian acts for developers, contractors, funders and private clients regarding construction documentation and disputes. He has advised on projects in the UK, Europe, Japan and China. He has worked on PFI projects and on disputes arising out of PFI contracts.

Ian has advised on international arbitrations arising out of disputes involving the refurbishment and upgrade of a substantial oil refinery in Algeria. He trained at Fladgate and qualified as a solicitor in the construction team in March 2014.

PAUL
BUSSEY

RIBA Fire Expert Advisory Group
AHMM Architects-Fire and Principal Designer Lead

Paul Bussey is an architect with over 40 years’ experience in the UK and abroad. Paul represented RIBA on the Judith Hackitt Building Regulatory Review Expert Advisory Groups and was involved with the development of the CDM 2007 and 2015 regulations.

Paul is interested in how a revised Approved Document B can improve fire safety and in how project risk management at design stages can be integrated with fire and health and safety considerations in a proportionate and practicable manner.

Paul has developed his specialist technical expertise in the application of all types of building related legislation and constructional guidance. Paul also sits on the Interim Industry Competence Committee particularly for the PD role.

MARK
SNELLING

Managing Director
Safetymark

Mark Snelling is the Managing Director of Safetymark Consultancy Services, a health, safety and fire consultancy. Mark also chairs the APS’s regulation and policy committee working currently on the association’s response to the Building Safety Bill.

Mark has been closely involved in developing the construction sector’s pan-industry response to the Hackitt Review. He is an adviser to the Association of Residential Managing Agents [ARMA] working closely with the BSI on the development of the new building safety manager dutyholder role and description.

Mark is also a practicing CDM adviser working on major projects for a number of Build UK contractors.

CHRISTIAN
CHARLES

Partner
Fladgate LLP

Christian Charles is a partner in the construction team at Fladgate. Christian specialises in contentious construction matters, advising on the management and resolution of disputes commonly arising on construction and engineering projects.

Christian acts for clients on all sides of the construction industry and has prosecuted and defended claims in litigation, arbitration and adjudication proceedings in the UK and overseas. He covers a wide range of industry sectors - particularly disputes arising from PFI/ PPP, offshore engineering and infrastructure projects.

Christian contributes to legal and industry publications and presents to clients and consultants on developments in construction law, contracts and practice.

ANTHONY
TAYLOR

Chair
Building Safety Alliance

Anthony Taylor is a professional governance, risk and compliance consultant and owner of Resolve Risk, a specialist risk management consultancy.

Anthony chairs Working Group 8 looking at the new building safety manager role. He chairs the Building Safety Alliance and serves on the BSI committee for competence in the built environment and steering groups developing standards for the building safety manager, principal designer and principal contractor roles.

Anthony chairs several health and safety committees and Greenwich University’s built environment industry liaison committee. He is a member of numerous industry bodies, an honorary member of RICS and a chartered member of IOSH.

SIMON
FOXELL

The Edge

Simon Foxell is a core member and co-ordinator of the Edge, the built environment think tank, and on the Green Construction Board’s Routemap group. Simon is also the principal of the Architects Practice and has designed buildings across the UK. In 1996, he was awarded the Benedictus Prize by the Union of International Architects.

Simon has worked with schools and local authorities, designing new facilities and advising on development programmes. He advised Birmingham City Council’s Transforming Education programme.

Simon is a published author. He is a former member of the RIBA Council and Board and chair of its London region.

RUSS
TIMPSON

Founder
Tall Building Fire Safety Network

Russ Timpson is a fire safety expert and founder of the Tall Building Fire Safety Network. Russ is an award-winning chartered fire engineer and has been international fire professional of the year and holder of the CIR international risk management award.

Russ led a multi-disciplinary team of safety, health and environmental specialists at Virgin Atlantic and, at BAA, headed the response to the Heathrow Terminal 1 fire. He has contributed to major airport construction projects including Gatwick’s skyway and Heathrow’s T5.

Russ is a consulting resilience engineer helping improve occupant awareness of fire safety and a former submariner and firefighter.

FRANCIS
KWATENG

Member
Temporary Works Forum

Francis Kwateng is a member of the Temporary Works Forum and chairs Cheshire’s branch of the Institution of Civil Engineers. Francis has over 20 years’ public and private sector experience gained in temporary works’ roles for major contractors including Costain, Morgan Sindall and Barhale.

Francis has worked on significant tunnelling projects, water and electricity schemes and other large-scale civils’ projects including the M4 expansion, Birmingham’s Bullring, and both Robin Hood and John Lennon airports.

Francis is uncompromising and committed to safety believing proper planning, robust processes and competent accountable people make a real difference to safety in the built environment.

GRAHAM
WATTS

Chief Executive
Construction Industry Council

Graham Watts is chief executive and secretary of the Construction Industry Council [CIC]. Graham is central to pan-industry policy and communication with government, stakeholders and members.

Graham is secretary to the All-Party Parliamentary Group for Excellence in the Built Environment. He is an honorary fellow and member of numerous industry bodies and was awarded both CIOB’s President’s Medal and CABE’s Peter Stone Award.

Graham was formerly chief executive of the British Institute of Architectural Technologists, is a visiting professor at the University of Northumbria and is on the Board of several construction organisations and has an OBE for services to construction.

JONATHAN
MOULAM

President
Association for Project Safety

Jonathan Moulam is the current APS President. He took over the presidency from Stella Clutton-Saunders in October 2020.

Jonathan is a senior health and safety professional with over 40 years’ construction industry experience gained in both public and private sector organisations. He has worked for a number of client organisations taking on senior management and consultancy roles. He is an experienced consultant and director of Moulam Pragmatics Ltd.

Jonathan understands the complexities and challenges the CDM Regulations 2015 created for the industry and now assists APS members with technical advice on CDM issues. He previously chaired the association’s governance committee.

ALED
WILLIAMS

Vice-Principal, Learning and Teaching
UCEM

Aled Williams is vice-principal of learning and teaching at UCEM having always worked in education focussing on the built environment in leadership positions at various UK institutions. Aled has designed and delivered academic programmes including an award-winning MSC in construction management.

Aled is involved in industry thought-leadership aiming to influence educational policy. He speaks at national events and chairs various committees such as CITB’s Right Training steering group.

Aled has a BSc in building surveying, an MSc in IT for property & construction and is a fellow of the CIOB, awarded its international innovation & research award for workplace mentoring.

DAVID
PHILP

Impact Director
Construction Innovation Hub

David Philp is digital strategy and innovation director at AECOM and impact director at the Construction Innovation Hub. David is a member of the BSI BIM Standards Committee. He also led BIM implementation at the Cabinet Office and chaired the Scottish BIM Delivery Group.

David has worked worldwide delivering innovative digital change. He is a chartered construction manager and headed BIM at Mace and programme director for technical services / BIM with Balfour Beatty.

David is vice-chair of the Construction Scotland Innovation Centre, a fellow of the ICE, RICS and CIOB and visiting professor at Heriot Watt and Middlesex universities.
